25         <!--Project Description-->
26         <div class="description">
27             <h1>Project 2: Collect App Phase 1</h1>
28             <p>For this project you will build phase 1 of a collection web applica-
29 tion.
30 of
31 display
32 web
33 ning
34
35             An app that allows the user to search through an extensive collection
36             something (of your choosing), display stats about the collection,
37             search results, etc. As you have learned several required aspects of
38             development, with AJAX, you now have enough knowledge to begin plan-
39             your next project. You will build a web app to support collections.
40             For example, I collect baseball trading cards.
41             Think about something you enjoy collecting or would like to collect.
42             Find an API source where you can get information about it. Build an
43             app to
44             allow you to build your collection. Build an app that allows you to
```

```
38      search
39      as
40      drill down to a detailed, single item, format.</p>
41  </div>
42  <!--Add a container to hold all of the GameSearch Page-->
43  <div class="container">
44
45      <!--Add the stats section-->
46      <div id="stats" class="stats">
47          <h1>RAWG Video Games Database API Stats</h1>
48          <p>Total number of games: <span id="totalGames">Loading...</span></p>
49          <p>Most popular game: <span id="mostPopularGame">Loading...</span>
